Purify

Could Parasites Be Feeding On You?

What Is Purify?

Purify is a 100% natural dietary supplement designed to help assist your body to rid itself of unhealthy parasitological organisms and improve health and well-being.

How To Use Purify:

- For most individuals, take 60 drops (2 veg capsules) once per day for 30 days to optimally purge intestinal parasitological infestations. Alternatively, for a full-body parasite cleanse, the Master Herbalist recommends a full 90-day regime for maximum internal results.
- For extreme infestations, perform an additional application (repeat the dosage listed above) in the course of the day.
- Purify is best taken when you first wake up in the morning (although it can be taken anytime) on an empty stomach, followed by a full glass of water. For optimum results, if possible, do not eat for half an hour after taking the product. Food consumed during the first half hour after taking Purify may slow the cleansing results.
- We do not recommend that you take Purify at the same time as a colon cleanser. Rather, take Purify in the morning, and the colon cleanse product later in the afternoon or evening before bed to fully maximize the results (note: a minimum of 2 hours apart).
- As with any cleanse, drink at least eight glasses of water per day.
- Mix with either water or juice to taste when taking the liquid formulation.
- Following a wholesome dietary regime will dramatically improve results during the cleanse.
- Pregnant & lactating women should not use Purify.
Always consult a health practitioner before usage with children.
